ABOUT ME

Software engineer with experience in creating creative and comprehensive applications for Android, desktop, and web. I work well in a team and readily take on delegated tasks. I appreciate feedback and enjoy suggesting innovative and creative solutions.

WORK EXPERIENCE

Infigo IS

City: Zagreb | Country: Croatia

[10/2023 – Current]

Software Developer

- Worked in a dynamic environment on several larger applications simultaneously (up to 3 per sprint), created and tracked tickets, and coordinated tasks within the team.
- Developed new functionalities and custom components using modern JavaScript experience.
- Learned and used Python, Linux (Ubuntu), and Docker through daily work and internal software development.
- Wrote tests using pytest and participated in code reviews, receiving and providing constructive feedback, ensuring code quality and maintainability while further improving my skills.
- Worked with [Splunk](#) on internal applications and obtained the Splunk Admin certification.
- Gained practical knowledge in Data Analysis through collaboration with the Data Analyst team and using Splunk.
- Wrote documentation for projects and new functionalities as I developed them.
- Acquired basic knowledge in AML, SIEM, Compliance, and other cybersecurity areas through hands-on project work.

Fina

City: Virovitica | Country: Croatia

[10/2020 – 10/2023]

Frontend Developer - Specialist

- Acquired the skills needed to manage a project from start to finish – from planning, sketching, and designing the architecture of the application and database, to the actual development and adjustments, culminating in a successfully completed project. Although the project was not large, it was sufficiently challenging to cover all key phases of development.
- Completed a SCRUM course at Algebra in 2022 and participated in the transition to agile work methods. Gained experience in working with agile tools (Jira) and communication tools with designers (Figma).
- Manually tested websites on various browsers and mobile devices to ensure compatibility and responsiveness.
- Wrote modern, efficient, and sustainable code in the .NET development environment using Blazor, Razor Pages, JavaScript, and SQL.

EDUCATION AND TRAINING

[10/2018 – 09/2021]

Bachelor of Computer Engineering

Veleučilište u Virovitici <https://vuv.hr/>

City: Virovitica | Country: Croatia

LANGUAGE SKILLS

Mother tongue(s): Croatian **Other language(s):** English

SKILLS

Frontend

HTML | CSS | Bootstrap | SASS | JavaScript | jQuery | AngularJS | Angular | Vue

Backend

.NET | C# | PHP | Java | Python

Databases

SQL | MySQL | NoSQL

Other

Windows | Linux | Docker | Splunk | Atlassian | Git | MS Office (Word Excel PowerPoint)

INTERNSHIPS/COURSES

[01/2025 – 01/2028]

Splunk Enterprise Certified Admin

Splunk
